

MillsResources

Bringing Great People Together

Darryl Mills

Founder/Director

Frustrated with existing talent providers and recruitment agencies, Darryl Mills founded Mills Resources in 2010 to circumvent the barriers that prevent businesses finding and retaining the best people for sustainable business performance and growth.

Following a 25-year career in engineering Darryl has established a unique cloud based recruitment business that is more accessible and responsive than any other agency in Australia.

Based on a solid foundation of trust, openness and integrity, Darryl has built a business model and an extensive network of contacts that extend beyond the shores of Australia to solve recruitment and retention issues for clients across the globe.

Areas of specialisation

- Recruitment strategy
- Engineering (white collar and skilled trades)
- Executive search
- Business leadership
